

where business and sustainability meet

“” FOOTPRINT FORUM

Footprint Forum

The Footprint Forum is more than just a membership body that talks about sustainability issues; it's a community that provides an unique opportunity for its members to come together to drive a more sustainable Foodservice sector.

Sustainable business is good business

It's unique because Footprint Forum acknowledges that businesses must balance sustainability with commercial imperatives and that a sustainable industry will only be achieved through collaboration – not competition – between companies from across the supply chain.

where business and sustainability meet

“” FOOTPRINT FORUM

Why join?

- Inform your business strategy by staying ahead of the trends in the sector
- Non-competitive environment
- Non-sales oriented networking opportunity
- Drive the agenda: debate with government representatives at highly interactive events
- Drill down into the impact of new legislation
- Hear about best practice from other parts of the sector – including competitive businesses – and use it to develop better operational plans in your own organisation
- Promote your organisation's work in sustainability: Footprint Forum reports published for the industry in Foodservice Footprint
- Raise your sustainability profile – present your experience to Forum members
- Participate in Video reports
- Hear from thought leaders in the foodservice supply chain
- Experience what's being achieved in other industries
- 4 events a year on the industry's hot topics
- Part of a social network where issues can be discussed on-line as they emerge
- Access to a member directory
- Priority access to selected content – video reports, Footprint Forum reports
- Preferential rates for, and invitations to other Footprint events

Membership

Available to anyone responsible for the environmental, social and economic impact of their organisation.

With sustainability now firmly on the boardroom agenda, members are typically director level influencers from across the supply chain, from source to delivery - including associated industries, Government, NGOs and not-for-profit (social) enterprises.

Costs

Enterprise or large business

£1,250.00+VAT per annum - up to 4 nominated members

£800+VAT per annum – up to one member

SMEs (EU Definition)

£850+VAT per annum – up to 2 nominated members

£425+VAT per annum - up to one member
